

Mfr & service For : Embedded, Medical, Textile & Agri Electronics

Expert In:

Hardware Development – Design & Troubleshooting
Firmware Development – Expert in chip level coding
Software Development – We can program anything
Embedded System – ARM, PIC, ATMEL, Texas, etc..
PCB Design – Multilayer PCB's with TH & SMD
Wireless Technologies – GPS, GSM, GPRS, ZIGBEE, BLUETOOTH
Sensor Technologies – Flex, Vibration, flow, moisture, optical, etc..
Website Design & Development with Graphics & Animation

Our Products:

Neuron Patient's & Multipurpose Monitor
Neuron Spot Locator
Neuron Multipurpose Mobile Starter
Neuron Wireless Water Level Controller
Neuron Temperature with Humidity Monitor & Controller

All our Products are controlled by Mobile Phone anywhere in the world
 We can do any electronic products as per customer requirement

TEMPERATURE with HUMIDITY MONITOR & CONTROLLER

Give a missed call to know the following features

- ❖ The present temperature and humidity of the room.
- ❖ EB Supply available position along with the present supply voltage of the room.

How to set your room temperature and humidity:

S.No	FEATURE	Send Message as [Commands can be in either Capital or Small letters without space]
1	Low Temperature Set (Room 1)	SMS Format: Lts1(Value) Ex: Lts1016 (To set Room 1 low temperature set as 16°C)
2	High Temperature Set (Room 1)	SMS Format: Hts1(Value) Ex: Hts1040 (To set Room 1 High temperature set as 40°C)
3	Low Humidity Set (Room 1)	SMS Format: Lhs1(Value) Ex: Lhs1060 (To set Room 1 low humidity set as 60%)
4	High Humidity Set (Room 1)	SMS Format: Hhs1(Value) Ex: Hhs1080 (To set Room 1 High humidity set as 80%)
5	Low Temperature Set (Room 2)	SMS Format: Lts2(Value) Ex: Lts2016 (To set Room 2 low temperature set as 16°C)
6	High Temperature Set (Room 2)	SMS Format: Hts2(Value) Ex: Hts2040 (To set Room 2 High temperature set as 40°C)
7	Low Humidity Set (Room 2)	SMS Format: Lhs1(Value) Ex: Lhs2060 (To set Room 2 low humidity set as 60%)
8	High Humidity Set (Room 2)	SMS Format: Hhs2(Value) Ex: Hhs2080 (To set Room 2 High humidity set as 80%)

9	To get all your Settings Details (Low, High Temperature and Humidity set values)	SET
10	If you want to stop your feedback messages temporarily	Off
11	If you want to get your feedback messages again	On
